NOTES: 1) Joint municipal authorities are classified to NACE-groups according to their main activity. In practise, they usually produce e.g. both health and social work services.

2) Quasi-corporations refer to municipal departmental enterprises. Their number of units for year 2012 is not yet available, so the number of year 2011 is used also for year 2012.

Please provide an exhaustive list of units separately for each subsector split by NACE codes (except for large groups of small units, having the same characteristics/nature (e.g. municipalities, schools, universities, hospitals, NPIs - see below)

For the large groups of small units (as defined above), please indicate just a name of the group (e.g. municipalities) and provide, in the related column, number of units included in the group

Summary lines are to be added/removed according to needs
