

Preliminary population statistics

2014, July

Finland's preliminary population figure 5,462,939 at the end of July

According to Statistics Finland's preliminary data, Finland's population at the end of July was 5,462,939. Over the January to July period, Finland's population increased by 11,670 persons, which is 2,330 persons fewer than for the corresponding period of the year before. The main reason for the population increase was migration gain from abroad: the number of immigrants was 8,370 higher than that of emigrants. Natural population growth, or excess of births to deaths, was 3,300 persons.
