## *Amended motor vehicle tax legislation influences motor vehicle trade sales in 2012*

An amendment concerning the motor vehicle tax that is levied at first registration entered into force on 1 April 2012. According to it, the amount of tax is now based on the volume of carbon dioxide emissions that correspond with the combined consumption of the vehicle. The tax on passenger cars and vans rises if the emissions exceed 110g/km. The impacts of the amended taxation on motor vehicle prices will also be seen in the development of motor vehicle trade sales in 2012.
