

Index of turnover of construction

2010, December

Turnover of construction enterprises grew by over nine per cent in the October to December period

The turnover of construction enterprises grew by 9.3 per cent in the October to December period when compared with the corresponding three-month period of the year before. In the latest examination period, turnover increased by 9.9 per cent in building construction and 2.0 per cent in civil engineering. Specialised construction grew by 11.4 per cent compared with the October to December period of the previous year.

Year-on-year change in turnover in the 10–12/2010 and 10–12/2009 time periods, % (TOL 2008)

In 2010 the turnover of construction enterprises increased by 3.6 per cent from 2009. The turnover of building construction went up by 6.4 per cent and that of specialised construction enterprises by 4.6 per cent. The turnover of civil engineering fell by 7.2 per cent.

The **sales volume** of construction enterprises grew by 16.1 per cent year-on-year in the October to December period. Over the same period, the sales volume of building construction enterprises went up by 17.9 per cent, that of civil engineering contracted by 0.7 per cent and that of specialised construction activities rose by 19.4 per cent.

The volume index of enterprises' sales is calculated by removing the effect of price changes from the turnover index series.
