

Labour Cost Index

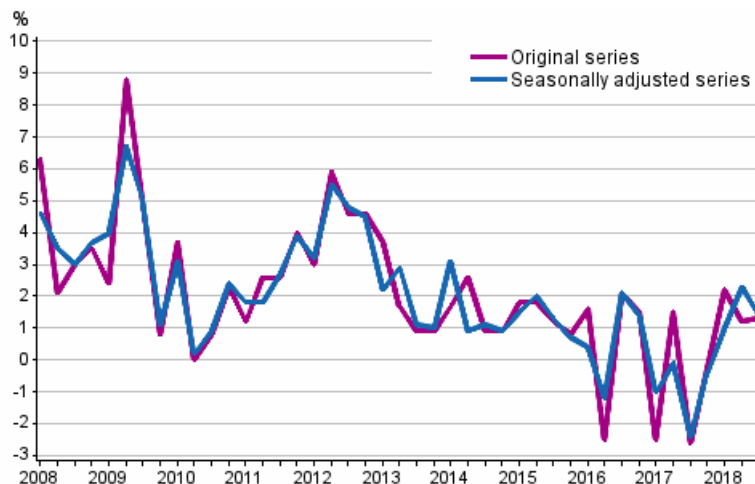

2018, 3rd quarter

Cost of an hour worked increased by 1.3 per cent in July to September year-on-year

Private sector labour costs increased by 1.3 per cent in July to September 2018 when compared with the respective period of the year before. Seasonally adjusted labour costs went up by 1.4 per cent in July to September 2018.

In the private sector, labour costs without one-off pay items, such as performance-based bonuses, increased by 1.6 per cent in July to September 2018 compared to the corresponding quarter one year ago. Over the same period, the index of wage and salary earnings for the private sector went up by 2.2 per cent.

Year-on-year change in labour costs in the private sector from the corresponding quarter of the previous year

In the central government sector, the cost of an hour worked increased by 0.2 per cent in July to September 2018 when compared with the respective period of the year before. Seasonally adjusted labour costs went up by 0.2 per cent. Labour costs without one-off pay items increased by 0.2 per cent over the same period. Over the same quarter, the index of wage and salary earnings in the central government sector went up by 1.7 per cent.

In the local government sector, the cost of an hour worked increased by 2.8 per cent in July to September 2018 when compared with the respective period of the year before. The year-on-year change in labour costs without one-off pay items increase was 2.7 per cent. Over the same period, the index of wage and salary earnings in the local government sector went up by 1.7 per cent.

Year-on-year change in labour costs according to TOL 2008, 1st quarter 2018

Code	Industry	Labour costs, year-on-year change		
		Labour costs	Labour costs, without one-off pay items	Labour costs, seasonally adjusted
B to S	Total, private sector	1,3	1,6	1,4
B to E	Manufacturing	1,2	1,2	1,5
F	Construction	3,8	4,4	3,8
G to N	Business service activities	0,9	1,4	1,0
J to R	Central government	0,2	0,2	0,2
D to S	Local government	2,8	2,7	..

The cost per an hour worked went up by 1.2 per cent in manufacturing industries (B to E), by 3.8 per cent in construction (F) and by 0.9 per cent in business service activities (G to N) in July to September 2018.

In manufacturing industries in the second quarter of 2018, there was a rise of 2.0 per cent in the forest industry. In the food industry costs went up by 1.9 per cent and in the chemical industry labour costs went up 1.5 per cent respectively. Among service industries, the biggest rise in costs, 2.8 per cent, was in wholesale and trade. In financial and insurance activities, costs decreased by 2.5 per cent.

The seasonally adjusted cost of an hour worked in all manufacturing (B to E) went up by 1.5 per cent in July to September 2018 compared with the corresponding period last year. In construction (F), the seasonally adjusted cost of an hour worked increased by 3.8 per cent and in business service activities (G to N) increased by 1.0 per cent.

In manufacturing industries seasonally adjusted cost of an hour worked went up by 2.0 per cent in the forest industry and in chemical industry labour costs went up 1.6 per cent in the July to September period of 2018 from the same period of the previous year. In business service activities, seasonally adjusted costs rose by 2.8 per cent in trade and by 2.0 per cent in transportation and storage. In information and communication there was a 2.1 per cent decrease in the seasonally adjusted costs.

The Labour Cost Index measures the change in wage and salary costs calculated per hour worked. Hours actually worked refer to the working hours an employee has spent on his/her actual duties. Hours worked include Sunday and overtime work but not paid hours off work, like the hours of annual leaves, national holidays or paid sickness absences.

In the index, hours worked or the structure of personnel have not been standardised. The cost of an hour worked is calculated directly as the ratio of industry-specific wages and salaries sum and social insurance contributions to the hours worked for each quarter. The change in average labour costs is affected by changes in regular earnings, performance-based bonuses and other one-off pay components, social insurance contributions, as well as changes in the number of hours worked and the structure of the labour force.
