

Preliminary population statistics

2013, August

Finland's preliminary population figure 5,442,322 at the end of August

According to Statistics Finland's preliminary data, Finland's population at the end of August was 5,442,322. Over the January to August period, Finland's population increased by 15,650 persons, which is 1,150 persons less than in the corresponding period of the year before. The main reason for the population increase was migration gain from abroad: the number of immigrants was 10,750 higher than that of emigrants. Natural population growth, or excess of births to deaths, was 4,900 persons.
